## Saab 9-5

Luggage compartment bin

Accessories Part No.	Group	Date	Instruction Part No.	Replaces
400 109 195	8:54-7	Jun 97	48 88 285	

E980A031

**To fit**

Remove the four plastic plugs in the luggage compartment floor.

Position the bin in the luggage compartment and press it into place so that the velcro strips fasten onto the luggage compartment trim.

If an extra rubber mat is used on the luggage compartment floor, part of it must be cut away to allow the bin's velcro strips to fasten onto the luggage compartment trim, see illustration.

**To remove**

Carefully detach the bin by hand, using your fingers, so that the luggage compartment trim is not damaged in the process.

 **WARNING**

Max. 5 kg load in the bin.

The contents must not protrude more than 10 cm above the lip of the bin.

The bin must be empty when the rear seat backrest is folded forward.
